DEPARTMENT OF THE INTERIOR,

OFFICE OF INDIAN AFFAIRS,

WASHINGTON, D. C.,

June 22, 1908.

To Indian Agents and School Superintendents in charge of Indians:

You are hereby directed to forward the Annual Report as to the Indians under your charge, one copy, in time to reach the Department *not later* than the *first of August* next. *No letter of transmittal is needed.*

The report should be plainly written on letter-size paper, and on only one side of the sheet.

It should furnish the Office with a *concise* but clear view of affairs under your jurisdiction, and give a full but *brief* summary of all noteworthy events and changes that have occurred during the year among the Indians.

Annual reports of employees other than superintendents of schools should not be furnished as appendices to the agent's report, but the substance of their salient points should be incorporated by the agent in his report.

The subjects of agriculture, stock raising, allotments, education, missionary work, morality, marriage customs, courts of Indian offenses, and other courts having jurisdiction over Indians, road making and repairing, and all industries among the Indians, either on or off the reservation, will, of course, be noted.

All educational work, whether by Government or other parties, should receive special notice, and the condition and progress of *each* school should be reported, special care being taken to furnish statistics concerning schools *not* aided by Government, as the annual report is the main source of information concerning them.

Facts in compact shape are wanted; but theories, generalizations, and especially "solutions of the Indian problem," may be dispensed with. In accordance with an Executive order, perfunctory eulogistical matter or reference to the visits of officials, or thanks to this Office for its cooperation, etc., should also be omitted.

The report should begin with place and date and end with merely the signature and title of the one making the report, and the address to this Office should be omitted.

The statistics called for on reverse side of this blank should accompany the annual report, or, if forwarded separately, should come *without a letter of transmittal.* Only *one* copy is wanted.

Although, by direction of the Department, the reports of agents and superintendents were not included in the bound volume of the Annual Report of this Office for 1907, yet it is considered desirable to continue the practice of submitting such reports, as they will be valuable for future reference in the Office files.

The reports for 1907 have been printed in separate pamphlets at several Indian school printeries and the set will soon be furnished to each school and agency.

Please acknowledge the receipt of this circular on inclosed postal card, and state at what time you will mail your report to this Office.

C. F. LARRABEE,
Acting Commissioner.

COLORADO RIVER INDIAN AGENCY
PARKER, ARIZONA

July 5, 1923.

The Commissioner of Indian Affairs,
Washington.

Sir:

In connection with the Statistical Section of the 1923 Annual Report, recently forwarded to the Indian Office, I have the honor to submit a census showing the living Indians of this jurisdiction.

I wish to respectfully explain that on taking charge of this Agency (October 1, 1922) I found the census in the same condition as at the other agencies I have observed,-- A most inexcusable hodge-podge, indicative of nothing that could be relied on. It apparently had been copied from year to year, and that only. It was necessary to commence a complete and new tabulation of Indians, and there was but one employee on the ground with sufficient experience among the Indians to appreciably aid in the work. It was soon found that the former census carried Indians long since dead, others who could not be identified, and many duplications of names, i. e., an Indian being carried under an Indian name and again listed under an English name. There was no one to assist in arranging the Fort Mohave and Needles census, as a field matron place had been vacant for practically the entire year.

The present census has been divided into four (4) groups of people, largely indicating their locations, to wit:

Colorado River (proper) Mohaves and
those Chemehuevis intermarried with them;
Chemehuevis proper (most of whom live at a
distance from this Agency);
Fort Mohave Indians (a large number of whom
live in Needles);
Mexicans (heretofore listed and some few
allotted actually---the former error
being glossed over by calling them
Papagos or Cocopahs).

While the combinations of these four groups show a certain number of Indians, the Office should understand that many of the Indians of these groups are absent from the locations named---being in California towns or wandering elsewhere. This is a matter that so seriously affects the school enrollments. We do not know if the children of such families attend any school.

To handle this matter intelligently, a new series of numbers had to be given the listed Indians, and by dividing them into four groups (by approximate locations) such numbers had to run with the groups. It is believed the Office will appreciate this.

There is a difference between the population figures, as given in the Statistical Section of the Annual Report, and this census of living Indians. This difference will be adjusted during the present fiscal year, when there will be additional employees to assist in accurately locating the Mohave and Chemehuevi Indians. It is believed this difference resulted in the matter of death reporting concerning distant and wandering Mohaves.

The office copy of the census as prepared, shows the relationships of these people; and when it is considered that most of the Mohave women have had four husbands, and children by each, with the resulting four differences in nomenclature, the task of preparing an accurate census becomes plain. The unmarried Mohave women, under their tribal system, are contemplating the same mode of life. Another illuminating fact is that, in a population of approximately 1100 persons, there are among the adults 92 more males than females---. in the whole population 152 more males than females. This accounts very largely for the well-known moral conditions. It is not a question of laxity, it is not entirely a condition of unmorality. The Mohaves have not the faintest tribal notion even of morals,

Respectfully,

Leo Crane.
Superintendent.
